Address Management

manage client and vendor information in one central location

Name and Address

Maintain name and address information for clients and vendors.

Separate physical and mailing address.

Enter the company email address and automatically address emails to the company.

Enter the company website address and automatically link to the company website.

Contacts

Enter contacts with email address and phone numbers.

Automatically address emails to specific contacts.

Personalize

Define the parameters of how you work with individual clients and vendors to personalize how Studio Showroom works for you.

Filter, Locate and Sort

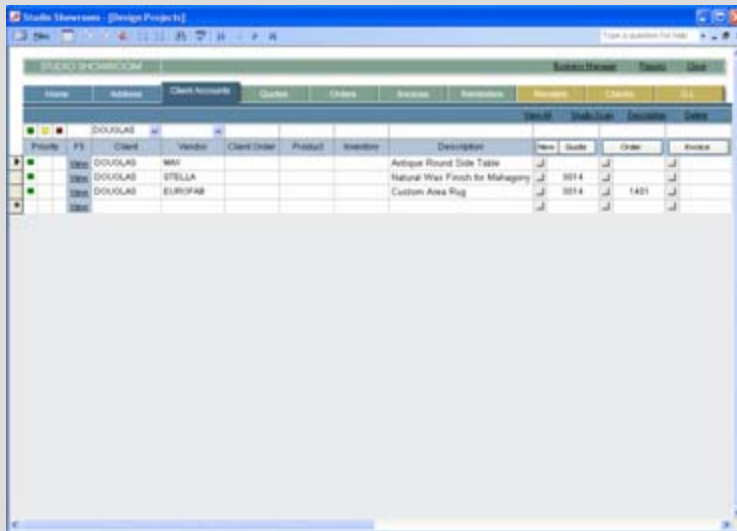

Filter addresses by any field in the address database.

Locate addresses by any field in the address database.

Sort the entire address list ascending or descending by any field in the address database.

STUDIO I.T.

Client Accounts

The screenshot shows a software window titled "Studio I.T. Home [Design Project 1]". The window contains a navigation menu with options: Home, Address, Client Accounts, Quotes, Orders, Invoices, Acknowledgements, Receipts, Checks, and Bills. Below the menu is a table with columns: Priority, FS, Client, Vendor, Client Order, Product, Inventory, Description, New, Date, Order, and Invoice. The table contains three rows of data:

Priority	FS	Client	Vendor	Client Order	Product	Inventory	Description	New	Date	Order	Invoice
		DOUGLAS	MMI				Antique Round Side Table				
		DOUGLAS	STELLA				Natural Wax Finish for Mahogany		09/14		
		DOUGLAS	EUROFAB				Custom Area Rug		09/14	1421	

manage client accounts
from the initial quote to
final invoice

One Step Entry

Items for clients are entered in one simple step. Quotes, Orders, Acknowledgements, Invoices and Checks are automatically created with the click of a button.

Account Management

View the summary status of all items for a client in one central location.

Expediting

Easily track the status of each item with dates and notes to insure orders proceed seamlessly.

Filter, Locate and Sort

Filter, locate and sort items to find information quickly.

Spell Check

No more misspelled descriptions on client and vendor correspondence.

STUDIO I.T.

Showroom Bill

Priority	FS	Client	Vendor	Client Order	Product	Inventory	Description	New	Date	Order	Invoice
		DOUGLAS	MMI				Antique Round Side Table				
		DOUGLAS	STELLA				Natural Wax Finish for Mahogany		2014		
		DOUGLAS	EUROFAB				Custom Area Rug		2014	1421	

showroom bill allows showrooms to purchase products and resell them to clients.

STUDIO I.T.

Reminders

reminders help keep orders on track and clients informed

To do list

Studio Showroom provides employees a list of reminders or tasks that need to be completed to keep orders on schedule.

History

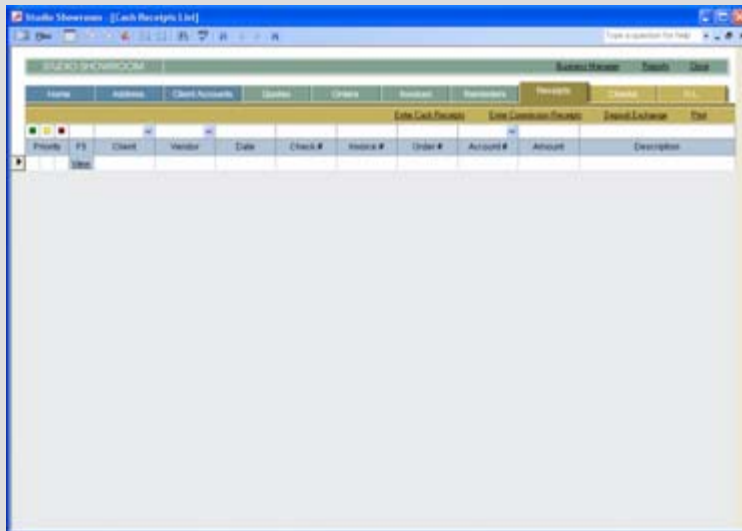

A complete history of all communication regarding an order is displayed for quick reference when employees follow up on tasks.

Phone messages

No more lost phone messages. Studio Showroom keeps track of phone messages and maintains an ongoing history of all calls.

STUDIO I.T.

Cash Receipts

enter order payments
from clients and
commissions from
manufacturers

Client Payments

Receive client payments for orders and maintaining accurate checking account balances.

Flexibility

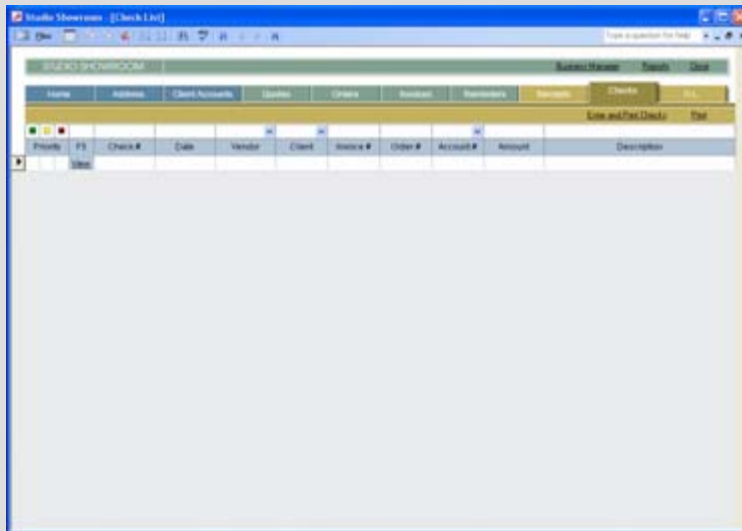

Enter client deposits and invoice payments in one simple step and the appropriate accounting transactions are automatically posted.

Manufacturer Commission Checks

Enter commission checks received from your manufacturer and apply the payment to individual orders in one simple step.

STUDIO I.T.

Checks

print order and office
expense checks

Vendor Payment Checks

Vendor deposit and payment check entries are automatically created when client payments are received.

Office Expenses

Enter and print checks to pay office overhead expenses.

Check Detail

View account posting detail for each individual check. Studio Showroom tracks expense account details and updates order accounts payable as checks are printed.

automatic general ledger
accounting to manage
the bottom line

Automatic

Studio Showroom automatically generates general ledger accounting transactions as daily tasks are performed.

Year end closing

Close the year with the click of a button. The prior year may remain open for one full year while adjustments are finalized.

STUDIO I.T.

System Requirements

Studio Showroom 7.0 system requirements

Operating System

Windows XP service pack 2, Windows 2003 Server

One full Microsoft Office application must be installed for spell check and images to function.

Hardware

1 GB or more recommended (2 GB if using Windows Vista)

Video card capable of displaying screen resolution of 1024 x 768

Network interface card (if networking is required)

Workstations must have a cabled network connection to the server

High speed Internet connection

Microsoft Access 2003 is required to customize your own Studio Designer reports

Individual security settings may affect the ability to install program updates and/or run the software

Important Considerations

A wired network must always be used to insure a stable network environment. Wireless networks are unreliable and can cause data corruption.

Although Studio Designer will run on Windows Vista, we do not claim Vista compatibility. If installing on Windows Vista please expect additional support assistance from our support department at the standard Studio Support billing rate.

Although Studio Designer will run on MAC with Parallels, we do not claim MAC compatibility. If installing on a MAC please expect additional support assistance from our support department at the standard Studio Support billing rate.
